

Vision & Mission

Vision

To be recognised as a world class association that serves to create mutually beneficial relationships among returning scholars and our stakeholders.

Mission

We are committed to advancing the professional and social development of past and current scholars of the Government of T&T, whilst meaningfully contributing to the development of the wider national society.

National Scholars'
Alumni Association of
Trinidad and Tobago

The start of a new initiative...

For decades the Government of Trinidad and Tobago has awarded scholarships to top academic performers . A group of scholars recognised the importance of using our knowledge and skills to give back to our society.

In early, 2009, an official national association of returning scholars was formed - National Scholars Alumni Association of Trinidad and Tobago (NSAATT).

NSAATT offers members the chance to network and above all contribute meaningfully to our society.

Our goal

To develop and maintain alumni interactions by encouraging members to make valuable contributions to national development.

Objectives

1. To create networking, professional development and social opportunities for returning scholars
2. To facilitate the exchange of ideas related to nation development and design programmes of action (think tanks, working documents, policy revisions).
3. To foster mutually beneficial relationship between Returning Scholars and other stakeholders (scholarships and Advanced Training Division, NGOs)
4. To provide opportunities that will promote life-long learning and professional enhancement among members

Where YOU can fit in...

Members can join any of the four committees:

Activism Committee

Stimulates national discussion through Letters to the Editor, participates in national consultations and suggests Policy Changes. This committee will bring scholars of different backgrounds to create solutions on pertinent issues including:

Environment & Agriculture
Gender/Education/Development
Culture/Art/Language
Business/Entrepreneurship/Innovation

Outreach Committee

Partners with non-governmental organisations to promote goodwill and charity for the benefit of society at large.

Professional Development Committee

Enhances the careers of members by promoting lifelong learning, professional enhancement programmes and lectures. This committee will work closely with professional associations to increase resources available to NSAATT.

Entertainment Committee

Plans and executes events to encourage networking among the alumni. All major fund-raising events will fall under the purview of this group.
